

NEW ACCUFIELD APP!

→ **DESIGNED TO HELP YOU SUCCEED ON THE FARM.**

This app will allow for seamless viewing and entering of your farm data. So, whether you want to review sampling results, fertility recommendations, pull your own tissue samples based on aerial imagery, or analyze yield data – this app will be your one-stop shop!

→ **EVERYTHING YOU NEED, ALL IN ONE PLACE.**

The AccuField App has API connections to John Deere's Operations center, Climate FieldView, and Case IH's AFS Connect software to put all your data in one place, enabling you to make data-backed decisions for your farm.

If you are an existing user, your credentials will work in the new AccuField app. However, if you are new to the app and want to learn more about its features or need assistance in setting up an account, you can fill out the form on the page or click on the link [here](#). We will get in touch with you to discuss the next steps and provide additional details. If you have additional questions, please reach out to your local ag technology specialist.
